

We're thankful for another season filled with great, fishing, great staff, great vendors and great guests. One could say – it was truly a great summer!

We remain committed to offering a **hassle-free, quality wilderness experience** — where every trip feels like a return home.

Whether you joined us for the first time this summer or have been part of the KaBeeLo family for decades, your continued support inspires us to keep raising the bar. Keep reading to see what's new and next at KaBeeLo!

WHERE YOUR \$'S *Went*
& WHERE THEY'RE *Going*

Some of these updates may not always be obvious — but they're part of what keep the KaBeeLo experience running smoothly, season after season.

THIS YEAR

NEXT YEAR – These are BIG!

<ul style="list-style-type: none"> • Completed WAVELL remodel; siding, cribbing, deck, roof, and converted the porch into a mudroom. • New flooring installed at SEAGRAVE • Started to remodel some of our staff cabins; improved insulation, doors and flooring. • Chipped away at aircraft enhancement & maintenance tasks 	<p>NEW LAKE - Big things are happening at KaBeeLo's newest addition! The team has been hard at work clearing cabin materials, assessing the cabin site, and preparing for future guest access.</p> <p>There's still work to be done, but the potential is incredible — work permits have been submitted and we hope to have her ready for the 2027/28 season. We encourage you to follow the makeover on our Facebook page, and be the first to know the name ... when it's launched.</p> <p>RUDDY REVIVAL – she's "almost" back.... this summer a new dock was built in preparation for her pending revival. Ruddy will be designed for groups of 2-4 and equipped with the modern amenities that have become standard in KaBeeLo's cabins.</p>

CROSSING INTO CANADA

We're pleased to share that guest reports about border crossings have been very positive! Most have experienced no issues with duties, tariffs, or delays, and the process continues to be smooth and straightforward when prepared.

Statistically, international travel into Canada through Fort Frances remains about 25% lower than 2019 levels, but each year continues to show steady improvement — and crossings are now more efficient than ever. To ensure an easy trip:

- **Answer all questions honestly**
- **Declare any food, alcohol, or restricted items**
- **Have documentation ready** (your KaBeeLo confirmation slip, email, or any proof of stay)

TECHNOLOGY EVOLVES – AND SO DO WE...

As our technology driven world continues to “evolve”, so do the offerings at KaBeeLo. In 2026, we will **retire the emergency “E” system**, which has faithfully served guests for many years.

Today’s guests have more options for backcountry communication, including **satellite phone rentals available through KaBeeLo** and the increasing use of personal satellite devices (Garmin in reach, ZOLEO, certain mobile carriers).

We’re committed to maintaining guest safety while embracing modern technology, be sure to pre-order your satellite phone rental from KaBeeLo as supply can be limited.

UH-OH...DAMAGED EQUIPMENT?

KaBeeLo aims to provide a hassle-free experience — no nickel-and-diming for minor damage or normal equipment wear. We also understand that accidents happen!

That said, we can't repair or replace items for the next group unless we **know about the issue**. Please report **any damage, malfunction, or concern** to management.

Your communication helps us ensure everything remains in good working order for future guests. It truly takes a village to keep KaBeeLo running smoothly — thank you for doing your part!
